4 OUTDOOR BRANDING

Outdoor advertising refers to the placement of hoardings, banners, sign-boards etc. in open spaces such as next to a busy highway, at a petrol pump, or near a tourist spot. Such placement makes your advertisement inescapable, giving you round the clock visibility. It is visible to each and every person passing on that route, and for the routine commuters, it also adds an element of repetition.

IN DOOR BRANDING

Indoor advertising, on the other hand, aims to reach out to a specific section of people, based on their lifestyle and preferences. For example, advertising for your clothing line in a shopping mall will give your brand instant recognition in the eyes of the shoppers who see it. Some popular forms of indoor advertising such as restroom advertising in malls, advertising in shopping malls etc. force the consumer to look at your advertisement again and again, leaving a strong impression on their mind.

Subject: Thank You

Dear Sir

On behalf of my management team, I would like to thank you for your overwhelming support towards the organization for making the world's largest human national flag event on 16th December 2013 at National Parade Ground a resounding success.

It must be said that without your support, we couldn't have managed to set this new Guinness World Record.

It is for this flag we have fought a war in 1971 and it is the same spirit of patriotism that has allowed us to set this world record. This time we found our victory with 27,117 people imbued in the same immense spirit.

Robi takes pride in being a brand which is deeply rooted in the Bangladeshi culture and heritage. We believe that we, as Bangladeshis, can achieve the impossible by ignited the power WITHIN US. Setting a world record of the world's largest human national flag is only an example of what we can achieve if we work together.

It was heartening to see the participation of large number of students from various schools and colleges, our esteemed defense organizations and forces in setting the world record. We salute their patriotic spirit, it again assures us that the future of our country is in capable hands.

Robi is proud to have had your esteemed organization as one of the valued associates for this event and we believe that this is only the beginning. We will certainly keep up our commitment towards the nation in days to come to make greater things happen and make our nation proud; because when we unite, Bangladesh shines.

Thank You.
